

Death is only the beginning.....for nineteen-year-old high-school senior Rei who wakes up one morning after an injury to find herself...well...dead.She finds that being undead is rife with its own peculiar problems, including loneliness, and finding an appropriate food supply--without attracting too much attention from the police.A tender, coming-of-age story for the recently deceased.WARNING! This story contains graphic descriptions of zombies feeding, mayhem, the opposite of mayhem, murder, sex, and insinuated lesbianism. If you find any of these disturbing, you should avoid reading this story.About the book: The title is not meant to insinuate sex between humans and animals--its a reference to the 1975 film A Boy and His Dog starring Don Johnson, and an allusion to the books playful and ironic examination of the Boy and His Dog trope. Its not sex from cover to virtual cover; its more plot driven. It does deliver several overtly sexual scenes, some insinuations and frustrated attempts at sex, and scenes of sex combined with zombies feeding. Ive tried to keep the writing as tasteful as possible without excluding any details that satisfy those in the audience looking for an extreme story. There are influences and themes that will be familiar to fans of Manga, but might be novel for a more traditional Western audience. Enjoy!
