

Alexis Ferguson has been abandoned by every vampire in her life, and she doesn't even know why. In fact, she keeps having memory lapses. She's sure that finding out why is the key to finding her loved ones. Meanwhile, she must live with her family, pretending to be human. She tries to ignore her basic paranormal needs, and begins to waste away. Alexis nearly takes out her entire family at a holiday meal. She knows she needs to take care of herself, but can't find the motivation until another supernatural steps in, concerned for her well-being. He's gorgeous, so what could go wrong? Other than the fact that he's a werewolf and her teacher.
