

Get PhatHigh in the snow-covered mountains of North America, a new and strange species of Homo sapiens is mutating. Characterized by wide, boardlike appendages that attach to its feet, this new species has built a language, a community, a world, around the act of riding a buttered stick down a slippery slope. The scientific name for this species is Singleplankus riphthillicus. That's Snowboarder to you and me. So begins The Snowboarders Total Guide to Life. Part anthropological study and part field guide, it gives the inside look at the mating rituals, migratory patterns, and grooming habits of nature's most recently evolved creature: the North American Snowboarder. Bill Kerig, a self-confessed member of the species (and a snowboarding addict), lets us in on the Snowboard Creation Myth, explicates the Freudian significance of the stick, and gives us the skinny on how to...perform the essential Cool Daddy Handshakewalk the walktalk the talk achieve the look and, most important, how to be phat
